Where safety meets mobile.

Strategic partnership incorporates Rave’s product portfolio, including Rave Alert™ emergency notification platform and Rave Guardian™ personal mobile alarm

Strategic Partner:

-----  
Peyton, CO. & Framingham, Ma, – (June 25, 2009) – FSPS, Inc. (www.fspscorp.com) and Rave Mobile Safety (www.ravemobilesafety.com) today announced the two companies have entered into a strategic partnership, whereby they will jointly market and sell alerting and mobile safety solutions into the federal, state/local government, education, and commercial enterprise markets. The cooperation of these two companies will bring significant technical and operational best practices into these markets.

FSPS, Inc. delivers Automated Notification and Response Systems (ANRS) to elite federal, military, and civilian law enforcement operators and continues to be a thought leader in developing the vision for public safety through NetCentric mass notification systems-based technologies.

Rave Mobile Safety offers numerous applications that enable cell phones to become powerful safety devices:

Rave Alert provides an easy and effective way to send broadcast or targeted text messages, email, recorded voice messages and/or RSS feeds to notify organizations of important announcements. Rave Alert is a hosted, Software as a Service (SaaS) solution built on a geographically distributed, redundant architecture ensuring that messages get through quickly to the intended recipients, regardless of location.

Rave Guardian provides peace of mind and increased security by transforming users' mobile phones into personal safety devices. The phone-accessed application can be armed, and when triggered, automatically sends the user's picture, mobile number and personal information to security. Rave Guardian works on any cell phone from any provider in the U.S., and in many cases can

display the user’s GPS location on a map enabling security or other first responders to provide assistance more quickly.

“This timely alliance with FSPS, Inc. will allow Rave to quickly and effectively expand our safety portfolio into the federal and DoD markets, and develop unique operational capabilities for the federal sector,” said Rave Mobile Safety CEO, Tom Axbey. “FSPS, Inc. has built significant core competencies in these markets, and we are delighted to jointly go to market with them.”

“Not only is the Rave Mobile Safety portfolio critical for today’s federal and state campus security needs, but their Software as a Service model is a perfect fit for reducing the Total Cost of Ownership (TCO) in today’s federal and military systems support environment,” said FSPS, Inc. President, Pat Morgan.

The combined Rave Mobile Safety and FSPS, Inc. solutions are available immediately from either company. All solutions are licensed on an annual basis.

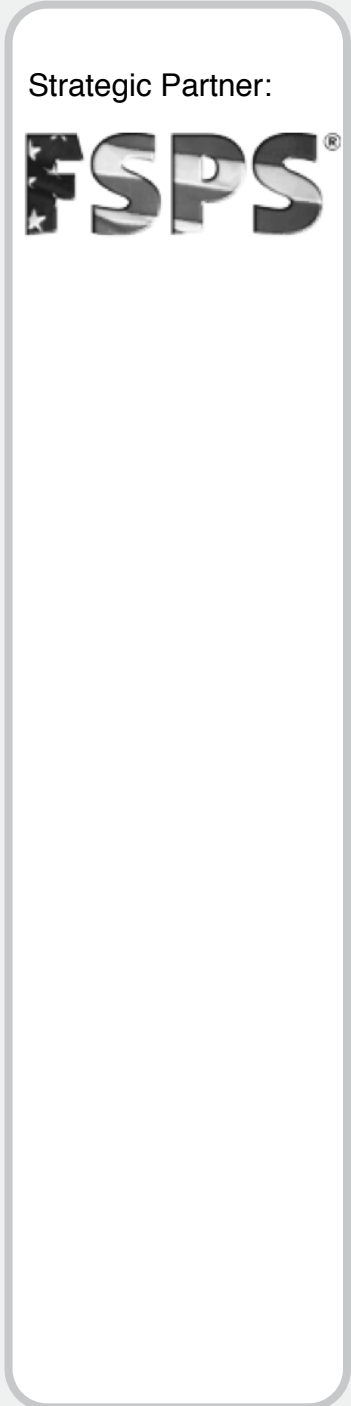

**About FSPS, Inc**

FSPS, Inc. has worked with a wide range of commercial, federal, and municipal agencies around the world to provide right-sized solutions for time-critical notification and response objectives. FSPS, Inc. utilizes requirements-based implementation strategies to integrate and expand your current notification processes, tools, and most importantly – your personnel.
